# OUTLINE

---

- Executive Summary
- Introduction
- Methodology
- Results
  - Visualization – Charts
  - Dashboard
- Discussion
  - Findings & Implications
- Conclusion
- Appendix

# EXECUTIVE SUMMARY

---

- **Current Technology Usage**

- Top 10 Language Used by respondents
- Top 10 Platform Used by respondents
- Top 10 Database Used by respondents
- Top 10 Webframe Used by respondents

- **Future Technology Trend**

- Top 10 Language desired by respondents
- Top 10 Platform desired by respondents
- Top 10 Dataframe desired by respondents
- Top 10 Webframe desired by respondents

- **Demographics**

- Distribution of Respondents by Age
- Distribution of Respondents by Country
- Distribution of Respondents by Education Level

# INTRODUCTION

---

- Every year, Stack Overflow conducts one of the most comprehensive surveys of developers around the world, gathering insights on their tools, technologies, work environments, and career trends.
- The **Stack Overflow Developer Survey Report** isn't just a snapshot of the developer community — it's a roadmap for where the tech world is heading.
- In this presentation, we'll dive into the latest findings, exploring trends in programming languages, frameworks, salaries, and workplace preferences. Whether you're a developer, manager, or tech enthusiast, this data gives valuable perspective on how the software world is evolving.

# METHODOLOGY

---

## •Data Cleaning

- Removed incomplete or inconsistent responses
- Filtered based on relevant variables (e.g., only full-time developers, or by region)

## •Categorization

- Grouped respondents by roles, experience levels, geographic regions, or tech stacks
- Mapped open-text responses (if any) into categories for analysis

## •Descriptive Analysis

- Used statistical summaries (mean, median, mode) and frequency counts
- Identified top programming languages, tools, and salary brackets

## •Visualization

- Created graphs, charts, and heatmaps to highlight key patterns
- Focused on variables with high correlation or notable differences between groups

# PROGRAMMING LANGUAGE TRENDS

Current Year

Next Year

Top 10 Programming Languages (2024)

Expected Growth of Programming Languages (2025)

# PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- JavaScript is the popular language that is used by Developers
- HTML/CSS is the 2<sup>nd</sup> most popular language used among developers
- Python is the 3<sup>rd</sup> most popular language developers have worked with.

## Implications

- JavaScript is still popular language that is desired by developers
- Python became 2<sup>nd</sup> most desired language. It replaces HTML/CSS
- SQL is the 3<sup>rd</sup> most desired language in future trend of language

# DATABASE TRENDS

Current Year

Next Year

# DATABASE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- PostgreSQL is the most popular database used and desired by developers
- Microsoft SQL Server is the 2<sup>nd</sup> most popular database used by developers
- MySQL is the 3<sup>rd</sup> most popular database used and SQLite is the 2<sup>nd</sup> most popular desired Database by developers

## Implications

- PostgreSQL is still in demand and remains at 1<sup>st</sup> position
- Microsoft SQL Server is not desired by developers to work with
- SQLite is more desired by developers than MySQL

# DASHBOARD

---

<[https://github.com/PreetiArya01/IBM-Capstone-Project--Data-analyst/blob/main/stack\\_overflow\\_survey\\_Report%20\(1\).pdf](https://github.com/PreetiArya01/IBM-Capstone-Project--Data-analyst/blob/main/stack_overflow_survey_Report%20(1).pdf)>

# Current Technology Usage

## Top 10 LanguageHaveWorkedWith

## Top 10 DatabaseHaveWorkedWith

## Top 10 PlatformHaveWorkedWith

## Top 10 WebFrameHaveWorkedWith.

# Future Technology Trends

## Top 10 Languages Desired Next Year

## Top 10 Databases Desired Next Year

## Top 10 Desired Platforms

## Top 10 Desired Web Frameworks

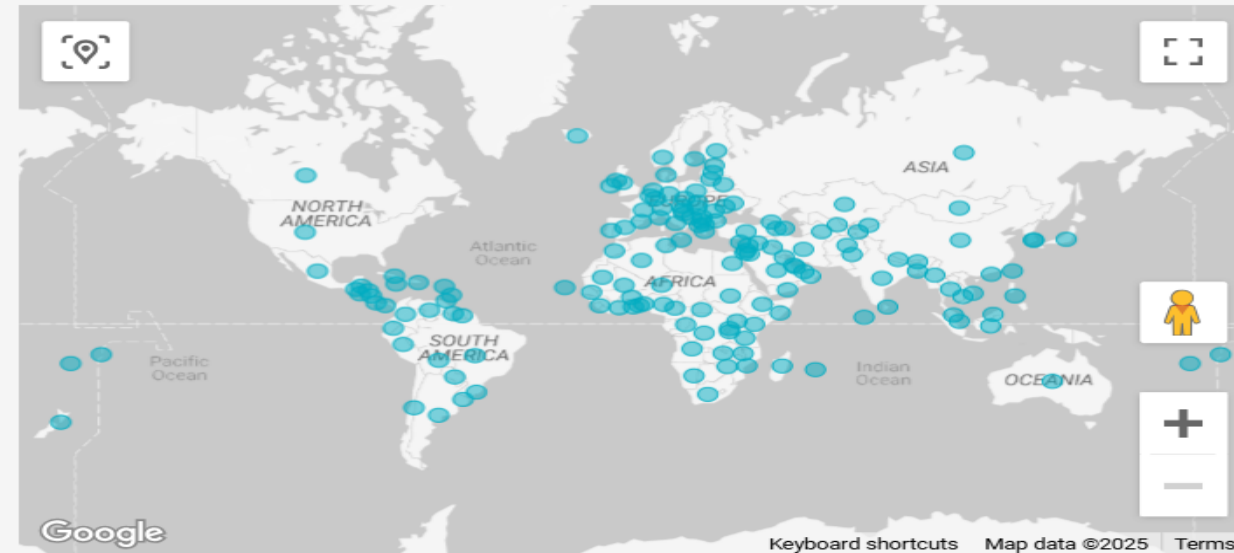

# Demographics

## Respondents By Age

## Respondent Count by Country

## Respondent Distribution by Education Level

## Respondent Count by Age, Classified by Education Level

# DISCUSSION

---

- Stack Overflow Developer Survey has revealed that the developers among the whole world have their own preferences in terms of Language, database, platform and webframe.
- Developers choice in language revealed that front end developers are much more in numbers.

# OVERALL FINDINGS & IMPLICATIONS

---

## Findings

- The most Desired and already used language is the same.
- The most desired and already used database is the same.
- The most desired and used platform is also the same that is 'AWS'.

## Implications

- If the desired and already functioning language, platform, database, and web framework are the same, it will certainly promote both individual and collective goals of the industry and its workforce.

# CONCLUSION

---

- The most Desired and already used language is the same.
- The most desired and already used database is the same.
- The most desired and used platform is also the same that is 'AWS'.
- The most desired and used webframe are also similar that is 'Spring boot', 'REACT'

# JOB POSTINGS

---

# POPULAR LANGUAGES
